Domain Package

Don't Just Register a Domain... Use It !

At LAST - A Basic Domain, Email and Single Web Page Package...

Our **Domain Package** caters for customers on a very tight budget, who have registered (or would like to register) their domain name and would like to start taking advantage of it immediately, but may not yet be ready for a full multi-page web site.

Domain Package Summary

Design work at freelance rates	<input checked="" type="checkbox"/>
Discounted Additional Domains	<input checked="" type="checkbox"/>
Total Yearly Fee only \$240 <small>(plus GST)</small> That's less than \$5 per week!	

Important Notes

1. One-off setup fees of \$80 plus gst apply on commencement of this package.
2. Prices are payable yearly in advance
3. Limit of 2 hours design of web page included - additional if required is at current freelance rates
3. Registration and/or all renewal fees for one domain is included. Additional domain names are also available at discounted rates.
4. Package is subject to the terms and conditions of the current client agreement published at www.intouchweb.com.au/agreement.htm.
5. All prices quoted are in Australian Dollars. 10% GST is additional and applicable to Australian customers.

What is Included?

The package includes the registration and management of a single domain name, the design of a single business-card type web page using your domain address and up to 10 domain email addresses forwarding to your ISP email account.

The package also includes basic anti-spam and anti-virus protection at the domain registrar level as well as other benefits.

What is NOT Included?

It is important to understand this package utilises technologies called URL forwarding and email forwarding. This means there is NO hosting resource allocated. Whilst this allows prices to be extremely low, there are also disadvantages in using this technology. Primarily these disadvantages are; a limit of a single web page only, an extra hop required in all email delivery and a reduced ranking in search engines.

Is This Package Suited to Everyone?

This package is **NOT** suitable to all customers, nor generally recommended as a permanent arrangement, however it is ***much better than leaving your domain name in your "bottom drawer"*** and not using it! It allows you to ***immediately begin advertising your permanent business web page and email address*** with your own business name, rather than projecting the unprofessional appearance of using your ISP's addresses.

If you are in doubt as to the suitability of this budget package to your current needs, please ask us.

The package is payable yearly in advance, but if at any stage you decide to upgrade to our **WebCentral Package** you will receive a pro-rata rebate for the remainder of the current year.
